

Mare Care Arrangements- 2008 Season

Mare care at Windswept Stables is arranged by calling 540-820-2509. A boarding agreement must be signed prior to the mare's arrival at the farm. Because Windswept Stables has LIMITED space for outside mares, reservations are required. Due to large number of our own 2008 arriving foals—we cannot accept mares with foals at their side. Dry mare care is provided via field board at \$12/ day or \$350/mo. Stall care is \$17/day/ or \$500/mo.

As per terms of breeding contract, all mares will arrive on the farm halter broken, with a negative coggins, current on all vaccinations, and with a negative uterine culture & cytology taken within 30 days of breeding. For live cover, an EVA test result MUST accompany the mare—taken within 60 days of arrival. A breakaway/ turnout halter with name is required.

Empire's Power is well -endowed, so we do NOT recommend live cover for maiden small and medium ponies. Live cover on mares that have had prior foals is fine.

Please email or call us for a copy of our boarding agreement.
